

RESULTS-BASED MANAGEMENT (RBM): PROJECT MONITORING

 **Dates and duration to be agreed**

 **Location to be agreed**

Contact us for a customised quote

OBJECTIVES

- Understand the project monitoring approach.
- Master the methods and techniques of results-based approach.

THE + OF YOUR TRAINING

- During the training course, practical work and case studies will be used to illustrate the project cycle of international donors (European Union, the African or Asian Development Bank and the World Bank).

CONCERNED AUDIENCE

- Executives involved in programme and project monitoring and evaluation
- Managers of projects in the preparation or performance phase.
- Government officials involved in setting up results-based management.

GOOD TO KNOW

- Participants are asked to bring along regulatory texts and contracts that they use in their work.
- Example of a 5 days programme

PEDAGOGICAL PROGRAMME

Module 1

From the project's design to its implementation

- Defining key concepts.
- The project cycle management: needs assessment, programming, feasibility study, monitoring and evaluation, capitalisation, audit.
- The principles of results-based approach and its consequences on project management: the notion of the results chain.
- The logical framework and the results framework: defining objectives, activities, results, expected impacts, indicators, and assumptions.
- Advantages and limitations of the project approach.
- Benefit of monitoring programmes and projects.
