- Examples and case studies

CONCERNED AUDIENCE

Top managers and managers

GOOD TO KNOW

Example of a 5 days programme

PEDAGOGICAL PROGRAMME

Module 1

Basics of team management

- Role and responsibilities of the manager.
- Components of the manager's authority, leadership.
- Organising the work of one's team and defining objectives.
- Knowing how to plan, accompany, supervise and arbitrate, share and communicate one's results.
- Knowing one's strengths and weaknesses as a manager.

Module 2

From proximity management to remote management

- Understanding the issues of remote management:
- similarities and differences with proximity management;
- types of distances, specific features and constraints of remote management.
- Identifying the requirements of remote management:
- employees' expectations:
- understanding the requirements of one's off-site teams, identifying the weak signals of ill-being and combating the sense of isolation;
- activities requiring proximity handling.
- Mastering the key roles and skills of remote management:
- clarifying the manager's objectives and added value;
- organising and scheduling the work remotely, and prioritising actions;
- defining the communication modes and frequency within the team;
- defining rules of operation.

Module 3

Tools and good practices of remote management

- Acquiring and implementing the communication methods linked with the new technologies: email, chat, videoconference, conference call, shared calendar, etc.
- Structuring the team's practices and paces.
- Mobilising and motivating a remote team: empowering and identifying successes.
- Learning supervised delegation and giving autonomy.
- Building and leading an action plan remotely.
- Setting up a reporting system.
