OBJECTIVES

- Understand how to create a project which meets the needs of the target populations.
- Master the stages of designing and drawing up a project in compliance with the expectations of the funders.

THE + OF YOUR TRAINING

- During the training course, practical work and case studies will be used to illustrate the project cycle of international donors (European Union, the African or Asian Development Bank and the World Bank).

CONCERNED AUDIENCE

- Executives involved in programme and project monitoring and evaluation.
- Managers of projects in the preparation or performance phase.
- Government officials involved in setting up results-based management.

GOOD TO KNOW

Example of a 5 days programme

PEDAGOGICAL PROGRAMME

Module 1

Identifying needs and defining actions

- Identifying needs and targets (problem tree).
- Taking the criteria for allocating invitations to tender into consideration.
- Defining objectives and the actions to be implemented.
- Identifying partners and resources.
- Results-based management: developing the results-based logical framework and results chains.
- Identifying base elements for the construction of an appropriate monitoring system.
